EVOLVE TALL PLANTER

How the Planter Works

This planter features a removable plant shelf and a drip tray for customizable use. Remove the shelf to fill the planter with soil, or keep it in place to support a potted plant. The drip tray below collects excess water from the drainage hole, helping keep surrounding surfaces clean and protected.

Plant Shelf

Remove tray to fill with soil or pot

Drip Tray

Catches excess drainage

Cleaning & Care Guide:

Clean with mild soap, water, and a soft cloth; rinse thoroughly to wash surfaces and maintain a fresh, clean appearance, and keep your product looking new.
