

MAYNE

Fairfield 24in Square Planter | Model #5890

MIS150 - Fairfield 24x24 Square Planter Guide

FEATURES

UV Resistant

All Season Use

Self-Watering

Double Wall Design

PACKAGE CONTENTS: 1 x Fairfield Square Planter

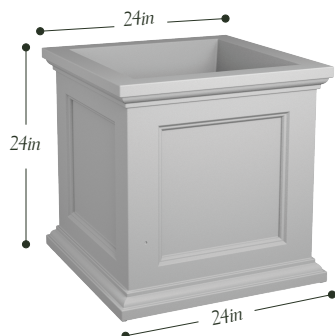

MATERIAL: Polyethylene

WARRANTY: 15-year limited residential warranty, 5-year limited commercial warranty

IMPORTANT NOTE:

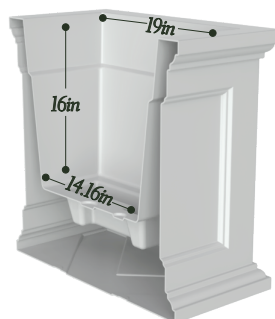

- Drainage holes are not pre-drilled allowing the planters to be used indoors. For outdoor use drainage holes need to be drilled. See instructions on the reverse side for more details.
- Mayne planters are very durable but we still recommend lightweight fillers and potting mixes for optimal plant growth.

DIMENSIONS & CAPACITY

Outer Dimensions

24in L x 24in W x 24in H

Inner Dimensions

19in L x 16in W x 16in H

Planter Capacity

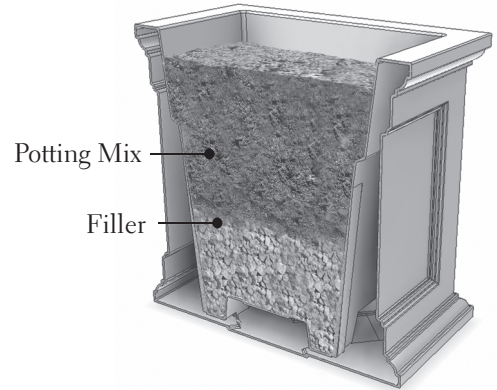

Soil Capacity - 19.5 Gal
Water Reservoir - 9.5 Gal

MAYNE

PLANTING GUIDE

Potting Recommendations:

Due to the size of this planter we strongly recommend the use of a good quality potting mix that encourages proper drainage. If you are concerned with the drainage properties of your potting mix you can add more perlite or other organic matter. To minimize the amount of potting mix required, fill the bottom with 8 to 10 inches of lightweight filler. Some suggestions for lightweight fillers include lava rock, mulch, wood chips, or foam packing peanuts (don't use foam packing peanuts if you are growing edible plants).

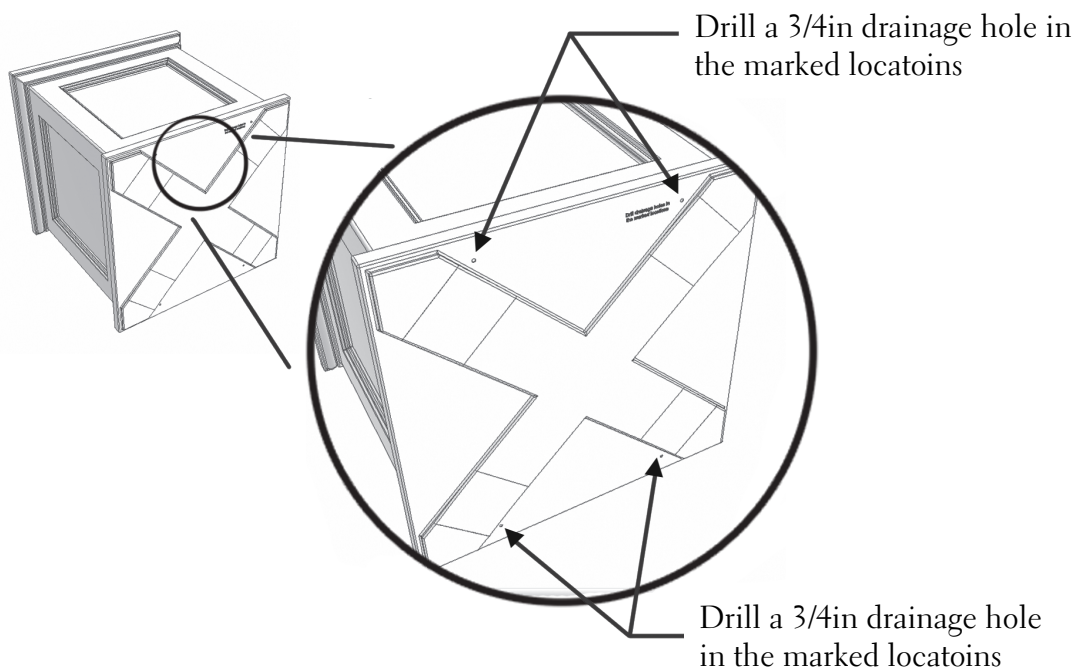

Indoor Use:

To allow for indoor use, the Fairfield Square planter does not come with any pre-drilled drainage holes.

Outdoor Use:

For outdoor use, drainage holes need to be drilled to provide proper overflow of excess water. Failing to drill drainage holes may cause oversaturation of the planted goods and in some cases may cause bowing or bulging of the planters walls.
